**Re: MAINTENANCE PROPOSAL FOR THUNDER BASIN HIGH SCHOOL**

---

**1-**FieldTurf offers to provide maintenance services for the following FieldTurf field:

Field Name: Gillette South Campus Stadium  
Product: XM6-57  
Size: 107,521 sqft.  
Install Date: 7/11/2017

The scope of services under this proposal shall consist of the following on each visit offered herein:

ADVANCED CARE MAINTENANCE- SMG SportChamp maintenance sessions including: (a) a general sweeping to remove foreign objects such as dirt, leaves, bird droppings, gum and other debris that may collect on the field surface; and (b) a deep groom, sweep and rejuvenation to de-compact infill in an effort to maintain appropriate G-Max levels. This is a three step process: decompaction, brushing and infill cleaning with a vacuum rotary brush and fine groom with a power surface brush.

Overall analysis and inspection of the field and its applicable systems, including infill depth and consistency, infill migration, field edging attachments, sewn and glued seams, line verification and field inserts (inlays).

Up to eight (8) minor repairs (including sewing/adhesive failures, inlay separation, and general workmanship) to the FieldTurf surface, in the discretion of the FieldCare crew at time of visit. If necessary, additional repairs can be performed on a separate visit and at an additional cost, if applicable. Additionally, any additional warranty repairs discovered during the maintenance visit may need to be performed on a separate visit, to be scheduled on a mutually agreeable date, as the time set aside for the proposed services may not provide enough time to complete all required repairs discovered during the performance of the services.

This offer does not include the repair of *any damage to the field as a result of acts of vandalism and/or neglect*. The price includes normal wear and tear; any major repairs or necessary maintenance as a result of damage due to abnormal wear and tear, abuse, vandalism, or neglect are subject to additional cost.
