

6130 School Improvement Program

Campbell County School District requires each student be provided with a suitable program of educational experiences to develop his or her potential to its fullest; consistent with the broad range of skills, knowledge, and values reflected in the Campbell County School District Strategic Plan. The Board recognizes each school must focus staff, time and material resources effectively to foster student learning appropriate to the varied educational needs of the school's student population.

Continuous and systematic improvements which focus on in-school factors comprising an effective school must take place on the school level to maximize effective teaching and successful learning. The Board of Trustees recognizes that school improvement requires sustained effort over time to increase school effectiveness.
